Basic UAS Training

Basic UAS Training

Part 107 Classroom Instruction

\$399/1 Day

This 1-day course teaches the most challenging aspects of the FAA's Remote Pilot Written Exam (Part 107). This class includes topics such as FAA regulations, airspace, weather sources, crew resource management, aeronautical decision making, emergency procedures, and much more.

End the day with testing strategy guidance and review of over 200 practice questions to help prepare you for testing day.

Drones for Public Safety Basic Course

\$999/2 Days

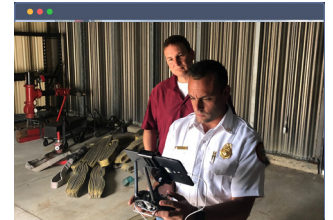

This 2-day onsite course includes one day of Part 107 classroom training. It also includes a second day of hands-on flight training covering skills such as equipment set up, basic flight maneuvers, camera operation, emergency procedures, essential maintenance, preventative measures, troubleshooting, and firmware updates.

Integration of UAS into Law Enforcement Field Operations

\$1,495/5 Days or
\$1,995/5 Days
(Includes DJI Mavic
Mini Fly
More Combo)

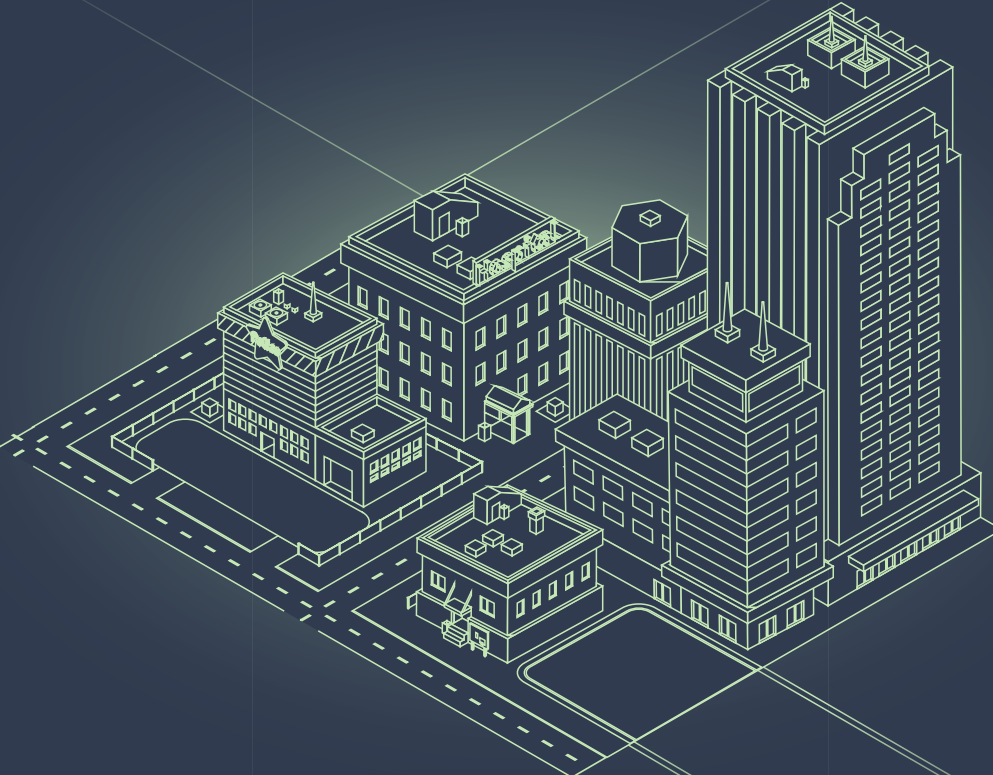

This 5-day course will cover everything you need to know to start your police UAS program. The course teaches the most challenging aspects of the FAA's Remote Pilot Written Exam (Part 107), COA rules and regulations, and how to operate a public safety drone program.

Topics covered include the National Airspace System, public aircraft operations, building a UAS program, components of a UAS program, crew resource management, selecting the right equipment, and use cases and missions. The course then transitions to extensive hands-on training to build your drone operator's necessary skills and guides you on methods to integrate drones into your daily field operations for both indoor and outdoor flight.

Advanced Technology UAS Training

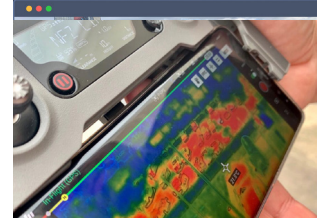

Advanced Technology UAS Training

Thermography For UAS

\$499/1 day

This 1-day course is an in-depth classroom and hands-on workshop focusing on the history of thermography, thermography basics, the science of thermography, camera and lens options, techniques for search & rescue, techniques for live fire, and post-collection analysis.

During the second half of the day, students will get the chance to apply their new knowledge to their own thermal imaging UAS.

Scene Reconstruction with Pix4D

\$499/1 day

This 1-day course is an in-depth classroom and hands-on workshop focusing on sUAS mapping and 3D modeling. Topics include photogrammetry 101, data in photographs, overlap and techniques for useful data, accuracy, and precision, ground control, field ops, apps for mapping flights, scene of an accident, and post-processing and working with point clouds.

Drones for Public Safety Advanced Technology

\$999/2 Days

Continue to elevate your training to expert level with a two-day course, including thermography and more comprehensive flight training. This in-depth, fully immersive training provides the most up-to-date knowledge in the sUAS space.

Topics covered include sUAS safety, which includes: techniques to reduce risk, battery care, and aeronautical decision making.

The sUAS thermography aspect covers the history of thermography, thermography basics, the science of thermography, camera and lens options, search & rescue techniques, live fire, and post-collection analysis techniques.

The sUAS mapping and 3D modeling include photogrammetry 101, data in photographs, overlap and techniques for useful data, accuracy, and precision, ground control, field ops, apps for mapping flights, scene of an accident, and post-processing and working with point clouds.

Advanced Technology UAS Training

Integration of UAS into SWAT/Sniper Operations

\$699/3 Days

Understanding the capabilities of UAS to provide eyes on complex and dangerous situations is critical.

This 3-day course will cover the information needed to integrate UAS into your SWAT/Sniper operations.

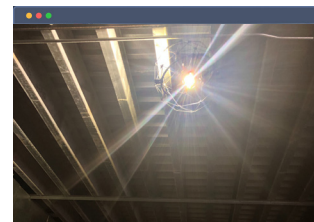

The course will help build a drone operator's necessary skills and develop advanced skills for making building entries and flying in tight quarters.

Integration of UAS into Patrol Operations, Criminal Investigations, and Crisis Negotiation

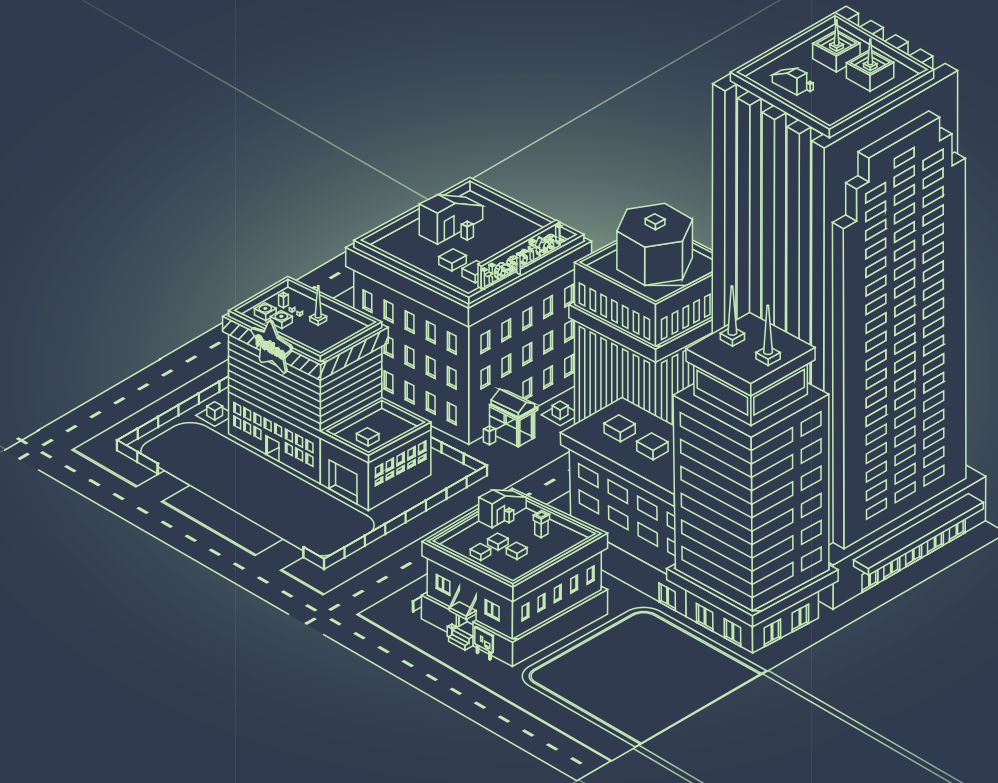

\$699/3 Days

This 3-day course will cover the information needed to integrate an agency's drone into your daily operations. The course will help build a drone operator's necessary skills and guide the operator on methods to integrate drone usage into daily field operations. The course can be focused more specifically on patrol operations, criminal investigations, or crisis negotiations; or cover all three at a high level.

Combative Series

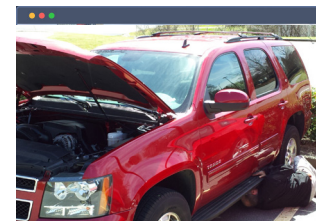

Combative Series

Counter-Surveillance for At-Risk Travellers

\$1,100/2 Days

Our Counter-Surveillance and Surveillance Detection course is a two-day training evolution. We place a heavy emphasis on practical application.

Counter-Kidnapping/Carjacking Avoidance

\$650/2 Days

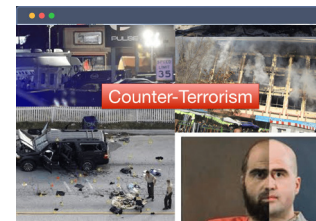

Our Counter-Kidnapping and Carjacking is a two-day in-depth, multi-faceted course. We start with developing your understanding of the vulnerabilities that you face while operating or conducting business in austere or hostile environments.

Workplace Violence /Active Shooter

\$3,000/1 day

Our Active Shooter Prevention Course is designed to give the attendee an understanding of the human factors present before and during an act of workplace violence. We will focus on the “pre-incident indicators and outlier behaviors” that can reveal the intentions of someone who intends to commit an act of violence or that an active shooter is present before the event and immediate response practices that reduce the loss of life.

This seminar is designed to give you an in-depth understanding of terrorist and criminal operations. Once you understand the current methods used by terrorist organizations, you can craft your organization’s counter-measures. We start by identifying the phases of the terrorist attack cycles and help build your capacity to prevent becoming a target. Recent case studies will be profiled, and in-depth analysis by our training cadre will be provided.

Combative Series

Combatives I

\$3,000/1 day

This is the foundation class where you learn the fundamentals, strikes, and combative mindset. Elements of this class are incorporated into every single seminar that we teach. Regardless of your gender or previous training, these skills work!

Combatives II

\$3,000/1 day

Combatives 2 builds upon the lessons from Combatives 1, incorporating a physically intense training evolution. This course is scenario-based and is designed to replicate the stressors during an actual violent event. This class is an initial review of the theories from Combatives 1 and then a transition to reality-based scenarios such as defending yourself as you walk to your car, at the ATM, and in everyday situations where assaults and kidnappings occur.

Combatives III

\$3,000/1 day

Combatives 3 is the integration of weapon platforms into the curriculum. No gunfight is ever like a scene out of the Wild Wild West where two armed men face off in the street and “duel” it out. Therefore, our training reflects this reality, and we teach you how to fight with your chosen weapon platforms (firearm, baton, knife, field-expedient).

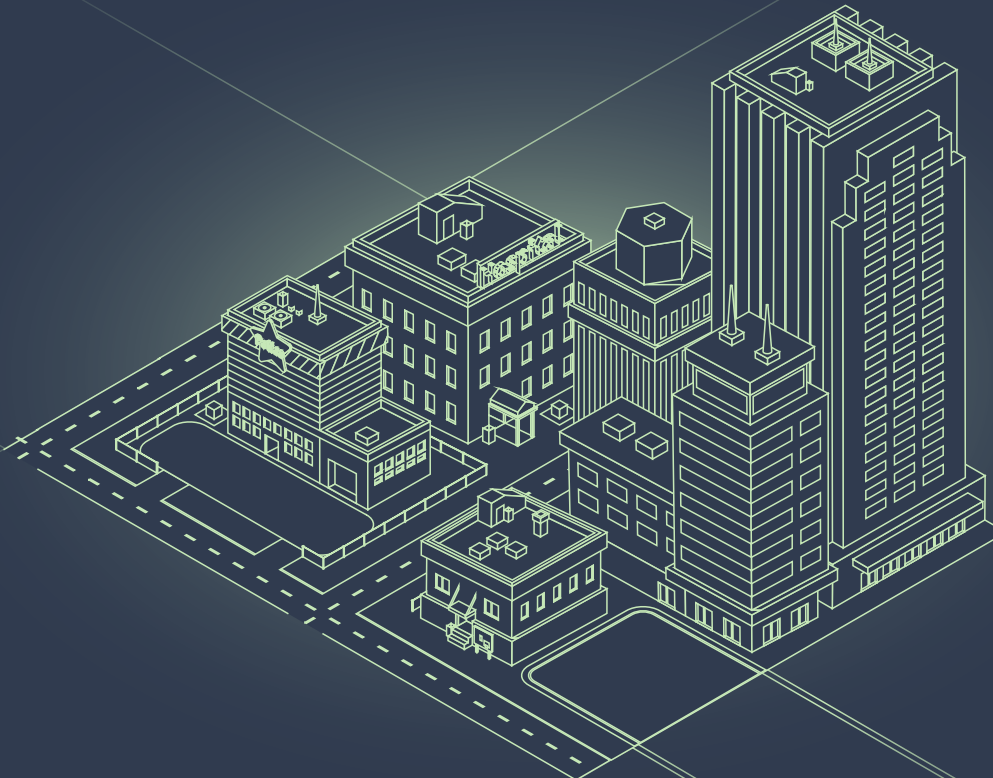

Anti-Kidnapping/ Carjacking Avoidance

\$6,500/4 Days

Our Counter-Kidnapping and Carjacking is a four-day in-depth, multi-faceted course. We start with developing your understanding of the vulnerabilities that you face while operating or conducting business in austere or hostile environments.

Corporate Capacity Building

Corporate Capacity Building

Corporate Risk Management

\$2,500/5 Days

This training evolution will provide the attendee with sound mitigation strategies that will enable them to successfully identify risks, categorize and develop strategic planning skills, therefor effectively managing the risk so that its impact is severely reduced or eliminated entirely and no longer jeopardizes the organization's long-term strategic goals.

De-escalation and Interpersonal Communications

\$3,500/1 day

This course aims to give the student the appropriate tools to recognize signs of aggression and practical tools to de-escalate during law enforcement encounters. The student will come away with practical techniques to prevent aggressive verbal behavior from escalating to a violent physical confrontation.

Role of the Manager/Leader Seminar

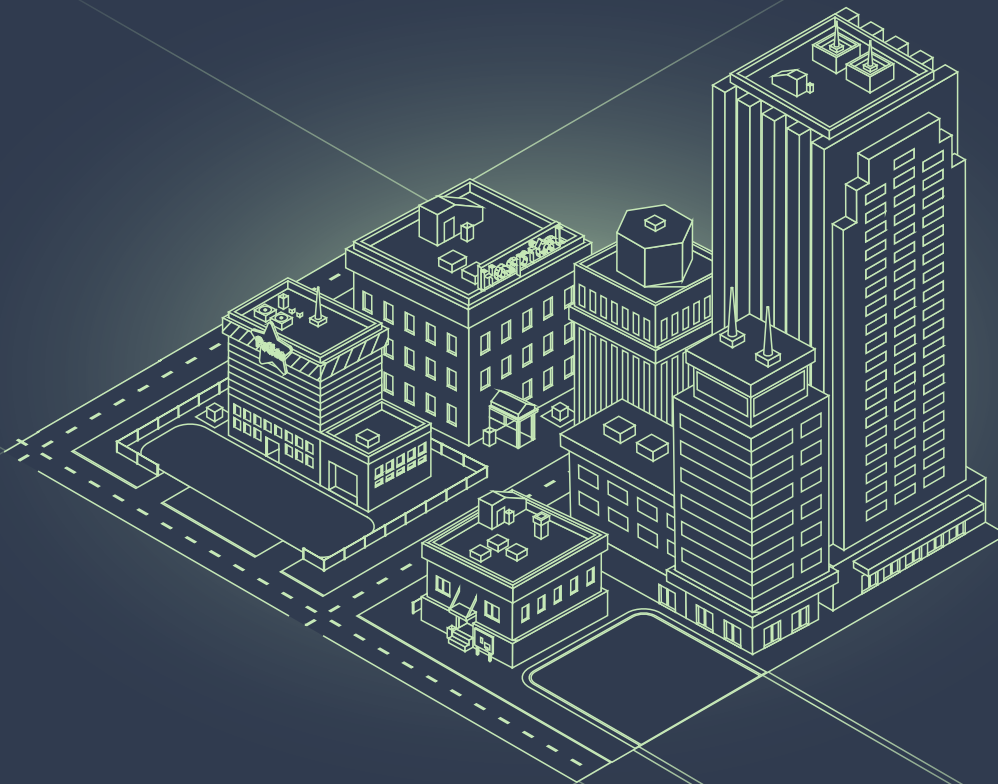

\$1,995/1 day

The role of the manager is often clearly stated but rarely defined. The manager is given the task of guiding subordinates while keeping an organization's goals and objectives. This training seminar will outline what it takes to be an effective manager by building and fostering fundamental leadership principles in the attendee.

Law Enforcement Training

Law Enforcement Training

Advanced Pistol 1

\$180/ 2 Days

This course is designed to give Law Enforcement Officers the tools necessary to improve their speed and accuracy with a duty pistol dramatically. Focused on realism, the class stresses the importance of proper training to increase survivability in high threat situations. This class is not appropriate for beginner level students. Students should be comfortable drawing and firing their pistol in less than 2 seconds at a minimum.

Advanced Pistol II

\$180/ 2 Days

This course builds on the skills and techniques taught during Advanced Pistol 1 by placing students in realistic scenarios where speed, accuracy, and decision making are paramount. Topics covered include: shooting while moving, operating in and around vehicles, use of cover, weapon retention, and much more. Students are required to attend Advanced Pistol 1 before this course.

Basic Rifle Course

\$275/1 day

The course includes safety, fundamental marksmanship, carry methods, weapon manipulation, shooting positions, and basic introductory rifle shooting drills. The course is designed for the entry-level carbine shooter.

Intermediate Rifle Course

\$595/2 Days

Introduction to advanced shooting positions. The student will be introduced to tactical doctrine stressing the components of the present 360 mindsets. The student will develop the necessary skills needed to survive in an urban combat setting. The student will learn the effective use of cover and concealment, tactical reloads, equipment positioning, and shooting from different shooting positions that are often encountered on the modern battlefield.

Law Enforcement Training

Advanced Rifle/ Tactical Rifle/ Urban Terrain

\$1,500/1 day

Introduction to urban combat drills, stress-induced sensory overload to simulate a combat environment, the advanced rifle will incorporate all of the lessons from Basic Rifle and Intermediate Rifle courses. The skillset developed from the previous courses will be utilized every day of the advanced class. The student will use the skillsets developed as each day progresses. The student will be challenged with tactical decisions that are often encountered in urban terrains. Physically demanding.

Advanced Firearms

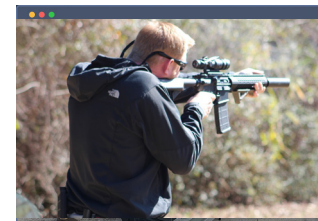

\$1,975/5 Days

Students will receive the skillset that is necessary to develop a combat mindset. On day one, the student will participate in a review of individual students' weapon handling skills. Each day will build upon the lessons learned the previous day. As each day progresses, the training regimen difficulty increases.

Patrol Rifle Optics/Back-Up Sighting Devices

\$275/1 day

This course is designed for the shooter who makes use of an optical shooting device for their firearm. Students will be taught installation, battle sight zero, the effect of the height difference from the mounting of the optic, and its relationship to the weapon system's actual barrel. The student will then incorporate these lessons and use this information for shot placement at known distances and employ proper "hold" at CQB distances and beyond.

Travel Smart

\$5,000/1 day

This course is a must for the international traveler and those who potentially find themselves in harm's way. If you are required to carry sensitive items or other valuables, this is a "must-attend" class. This course is specifically designed to address personal safety and security concerns. We stress and help you develop sufficient safety travel awareness of your surroundings and develop a "street-smart" mindset.

Law Enforcement Training

LCI 1 Covert Surveillance

\$795/1 day

The course culminates on day two with a field exercise where the students will be required to use the tactics and tradecraft to conduct a covert surveillance mission practical training in the field. The students will have to utilize each of the tradecraft specialties that were taught during the lecture format.

LCI 2 Criminal Intelligence Ops for Law Enforcement

\$395/1 day

This is the first course in our criminal intelligence series. Conducting illegal intelligence operations allows you to get ahead of emerging criminal trends and are an absolute necessity when facing the potential of civil unrest or mass protests. We will provide the necessary skill sets needed to conduct illegal intelligence operations properly so that you can produce an actionable product for the end-user.

LCI 3 Open Source Intelligence Ops for Law Enforcement

\$395/1 day

This course will provide the student with the fundamental skills necessary to use open-source intelligence data as a useful tool for criminal investigations and to police. Upon course completion, the student will have the ability to maximize their investigative efforts through effective information gathering and data point exploration and exploitation. The course culminates on day two with a field exercise where the participants will be required to demonstrate their ability to use open-source information in a real-world field exercise effectively.

LCI 4 Counter- Surveillance Ops for Law Enforcement

\$395/1 day

Our Counter Surveillance and Surveillance Detection course is a two-day training evolution. We place a heavy emphasis on practical application. We believe that learning occurs when an emotional/and or physical response is elicited from the student, and we have found throughout our careers that sitting through hours of PowerPoint presentations does not necessarily make for a good learning experience.

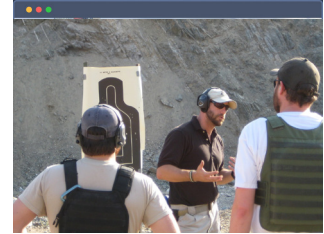

Law Enforcement Training

Use of Deadly Force & De-escalation

\$75/1 day

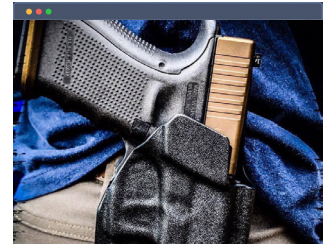

Earn Governor's Initiative hours needed to maintain GA POST certification.

Basic Pistol Safety & Techniques

\$275/1 day

This is a 1-day course teaching the fundamentals of marksmanship, weapon manipulation, and nomenclature.

Concealed Carry

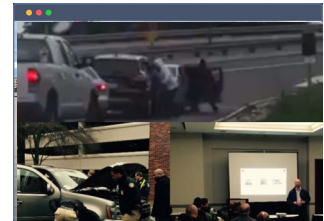

\$150/1 day

The class focuses on pistol skills where a concealed carry weapon is used. Topics include concealed draw, small pistol considerations, reduced target distance, operational environment considerations, and much more.

Tactical Field Medicine and Advanced Emergency Trauma Care

\$795/5 Days

This course is designed to teach the student the realities of attempting to perform casualty care in austere or hostile regions. You may find that you and the resources around you are the only ones available in specific environments. Traumatic injuries require swift and immediate care. The course is designed by and taught by combat veterans who have all performed lifesaving skills under combat conditions.

Counter Kidnapping/ Carjacking Avoidance

\$650/2 Days

Our Counter-Kidnapping and Carjacking is a two-day in-depth, multi-faceted course. We start with developing your understanding of the vulnerabilities that you face while operating or conducting business in austere or hostile environments.

Law Enforcement Training

Intro to Protective Services

\$795/3 Days

The concepts and fundamentals of professional executive protection teams are covered in depth. The attendee will learn the Primary Rings of Security basics (PRS) and each team member's roles and responsibilities during a VIP movement. This course is ideally suited for recently separated military personnel looking to enter the security profession, LE professionals looking to broaden their skill sets (you will receive POST credit hours) and security industry professionals. They are seeking to expand their capabilities and skillsets to serve their clients better.

Hostile Regions, Operational Readiness

\$3,500/3 Days

This intensive training evolution blends the components of our featured courses to prepare the student to deploy to hostile regions. Facets of our Intro to Terrorism, Counter-Surveillance, Counter-Kidnapping and Carjacking, Emergency Field Medicine, and Hostage Survival courses are collated to provide the student with the essential skills needed to deploy to potentially hostile and unstable regions and meet their mission or operational demands.

Leadership and Team Building for Protective Operations

\$795/1 day

This course provides security services with practical strategies for creating effective teams and frameworks for inclusivity, cooperation, and leadership for private security teams. Upon completion, the attendee will have developed a fundamental understanding of the different leadership styles, the traits and characteristics of an effective leader, and strong conflict resolution and team-building skills.

Protective Security Specialist Course

\$2,650/10 Days

This 10-day training course (80 hrs) is designed to provide an in-depth and comprehensive curriculum for close protection teams. The program is offered to corporate executive protection teams and Law Enforcement Personnel. This course will cover the fundamentals of creating and managing a close protection program for your company or agency based on operationally proven methods and guidelines that have worked domestically and internationally.
